

Care Options

Nurse Next Door offers a range of services from companionship to 24/7 nursing care. In addition to this, our real specialty is **Happier Ageing**[®] — we identify the one or two things that could help make your loved one happier as they age.

We'll work with you to create a personalised Care Plan based on your needs — whatever it takes to bring you **peace of mind**.

Companionship

Isolation is a leading cause of depression our ageing community. Our carefully matched, trusted caregivers offer social interaction for physical and mental well-being.

Meal Preparation

A nutritious diet comes with many health benefits. Our caregivers love to prepare delicious meals, including specific ethnic dishes if requested.

Respite Care

It takes time and energy to care for a loved one. Respite care offers temporary relief so you can recharge and enjoy time with Mum or Dad.

Homemaking

We offer light housekeeping services to help our clients with daily activities. This way, older people can stay at home in a safe and clean environment.

Around-the-Clock

Whether it's 3:00pm in the afternoon or 3:00am in the middle of the night, we support clients who need care any time. Services can be scheduled daily, weekly, or monthly.

Personal Care

From bathing to shaving, we design personal in-home care to support day-to-day independence.

End-of-Life Care

Everyone deserves comfort, quality of life, and respect for personal treatment decisions and cultural or spiritual concerns. We support our clients as well as their family.

Home Nursing

For optimal health, our Registered Nurses and Enrolled Nurses help prevent illness and increase comfort at home.

Yes, we provide what you need, but our real specialty is **Happier Ageing**[®].

It starts with one question:

“What did you use to love doing that you no longer do?”

Happier Ageing[®] means providing the choice to pursue interests, hobbies, and passions that might have gotten lost amid busy schedules, health concerns, or other distractions.
